

## West-East Team Kickoff Meeting Notes – Sun Feb 15, 2015

### First Deliverable

Milestone 1 - March 5th - 30 min presentation “Pitch” on what we can deliver.

- Presentation Slide Deck
- Requirements and Design

### Project Scope

Need a design for the full system plus one addition feature to set the project apart

### Actions

#### Backend Technology for Template/Plate Mgmt.

Team agreed on Relational Database for Plate / Template Mgmt

Investigating Java/JPA or Groovy/Grails for Plate Mgmt backend

- Mark F – JPA Spike to test back-end services (Plate Mgmt) using Java and JPA
- Alan O – Grails Spike to test Grails for back-end services

#### Frontend

Team agreed on Web Front End

Team thought Angular.js framework may be best

Visualizations for Results

- Sean investigate Angular Visualizations

#### Backend For Results Analysis

Some discussion regarding Mongo of other NOSQL database for this data

Team want to see some data samples

### Other Logistics

#### Meetings

- Meeting on Thursdays for 30 Mins after class
- Sunday times – TBA with team and Robert

#### Repository

- GitHub. Place project documentation in <https://github.com/massfords/we99.git>

#### Stories / Planning

- Use GitHub Issues for now for story planning
